

Systems FAC Conference Call
9 May 2002

1. FY03 Proposed projects for the CADD/GIS Center: The project books were distributed through e-mail on 9 May 02. Please take a look at the projects and provide your feedback and top 10 ranking to either John Kincaid (John.A.Kincaid@usace.army.mil) or Mary Diel (Mary.R.Diel@usace.army.mil). They are on the System Field Working Group and will be ranking them at the FWG meeting, 4-6 June 2002.
2. There will be a Systems FAC meeting at BIUC on Wednesday, May 22, 2002, from 4:00 pm until finished in Popup Meeting Room #6 in Exhibit Hall D. If you have something you would like to see on the agenda for this meeting contact John Kincaid or Roger Porzig (<mailto:Roger.W.Porzig@usace.army.mil>).
3. CADD Standards Implementation: Jean McGinn (HQ) has been tasked to poll the districts for the status of their AEC CADD Standards implementation and to write an ECB or regulation mandating that you implement the standards. She will be contacting the districts to get an update on the implementation of the standards.
4. CKB (CADD Knowledge Base): The ckb database has been modified slightly and will shortly be emailed to System Administrators at the districts. Please take a few minutes to enter your software and hardware inventories into the database and send it back to Mary Diel or Glen Kato (Glen.K.Kato@usace.army.mil). They will merge all the information and make the database available for viewing and searching on the ckb web site (<http://ckb.wes.army.mil>).
